# Movento® 240 SC Insecticide

 Version 4 / AUS
 Revision Date: 22.01.2021

 102000011328
 Print Date: 22.01.2021

### SECTION 1: IDENTIFICATION OF THE MATERIAL AND SUPPLIER

1.1 Product identifier

Trade name Movento® 240 SC Insecticide

Product code (UVP) 06424384

1.2 Relevant identified uses of the substance or mixture and uses advised against

**Use** Insecticide

1.3 Details of the supplier of the safety data sheet

**Supplier** Bayer Cropscience Pty Ltd

ABN 87 000 226 022 Level 1, 8 Redfern Road 3123 Hawthorn East

Victoria Australia

**Telephone** (03) 9248 6888 **Telefax** (03) 9248 6800

Responsible Department 1800 804 479 Technical Information Service

Website www.crop.bayer.com.au

1.4 Emergency telephone no.

**Emergency telephone no.** 1800 033 111 IXOM Operations Pty Ltd

## **SECTION 2. HAZARDS IDENTIFICATION**

#### 2.1 Classification of the substance or mixture

## Classification in accordance with Australian GHS Regulation

Skin sensitisation: Category 1

H317 May cause an allergic skin reaction.

Reproductive toxicity: Category 2

H361 Suspected of damaging fertility or the unborn child.

Specific target organ toxicity - single exposure: Category 3

H335 May cause respiratory irritation.

Chronic aquatic toxicity: Category 2

H411 Toxic to aquatic life with long lasting effects.

2.2 Label elements

Hazard label for supply/use required.

#### Hazardous components which must be listed on the label:

Spirotetramat

# Movento® 240 SC Insecticide

Version 4 / AUS Revision Date: 22.01.2021 102000011328 Print Date: 22.01.2021

Signal word: Warning

#### **Hazard statements**

H317 May cause an allergic skin reaction.

H361 Suspected of damaging fertility or the unborn child.

H335 May cause respiratory irritation.

### **Precautionary statements**

P202 Do not handle until all safety precautions have been read and understood.

P261 Avoid breathing mist/ spray.

P280 Wear protective gloves/ protective clothing. P302 + P352 IF ON SKIN: Wash with plenty of water/ soap.

P333 + P313 If skin irritation or rash occurs: Get medical advice/ attention.

P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P312 Call a POISON CENTER/doctor/physician if you feel unwell.
P308 + P313 IF exposed or concerned: Get medical advice/ attention.
P362 + P364 Take off contaminated clothing and wash it before reuse.

P405 Store locked up.

P501 Dispose of contents/container in accordance with local regulation.

#### 2.3 Other hazards

No other hazards known.

### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

#### **Chemical nature**

Spirotetramat 240 g/l

Suspension concentrate (=flowable concentrate)(SC)

Chemical name	CAS-No.	Concentration [%]
Spirotetramat	203313-25-1	22.40
Glycerine	56-81-5	> 1.00 - <= 10.00
1,2-Benzisothiazol-3(2H)-one	2634-33-5	>= 0.005 - <= 0.05
reaction mass of 5-chloro-2- methyl-2H-	55965-84-9	> 0.0002 - < 0.0015
isothiazol-3-one and 2-methyl-2H-isothiazol-		
3- one (3:1)		
Other ingredients (non-hazardous) to 100%		

#### SECTION 4. FIRST AID MEASURES

If poisoning occurs, immediately contact a doctor or Poisons Information Centre (telephone 13 11 26), and follow the advice given. Show this Safety Data Sheet to the doctor.

## 4.1 Description of first aid measures

**General advice** Move out of dangerous area. Place and transport victim in stable

position (lying sideways). Remove contaminated clothing immediately

and dispose of safely.

# Movento® 240 SC Insecticide

Version 4/AUS Revision Date: 22.01.2021 102000011328 Print Date: 22.01.2021

Inhalation Move to fresh air. Keep patient warm and at rest. Call a physician or

poison control center immediately.

Skin contact Wash off thoroughly with plenty of soap and water, if available with

polyethyleneglycol 400, subsequently rinse with water. If symptoms

persist, call a physician.

Rinse immediately with plenty of water, also under the eyelids, for at Eye contact

> least 15 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Get medical attention if irritation

develops and persists.

Rinse mouth. Do NOT induce vomiting. Call a physician or poison Ingestion

control center immediately.

4.2 Most important symptoms and effects, both acute and delayed

**Symptoms** No symptoms known or expected.

4.3 Indication of any immediate medical attention and special treatment needed

**Treatment** Treat symptomatically. In case of ingestion gastric lavage should be

> considered in cases of significant ingestions only within the first 2 hours. However, the application of activated charcoal and sodium sulphate is always advisable. There is no specific antidote.

# **SECTION 5. FIRE FIGHTING MEASURES**

5.1 Extinguishing media

Suitable Water spray, Carbon dioxide (CO2), Foam, Sand

Unsuitable None known.

5.2 Special hazards arising from the substance or

mixture

In the event of fire the following may be released: Hydrogen cyanide (hydrocyanic acid), Carbon monoxide (CO), Nitrogen oxides (NOx)

5.3 Advice for firefighters

**Special protective** 

**Further information** 

equipment for firefighters

In the event of fire and/or explosion do not breathe fumes. Wear selfcontained breathing apparatus and protective suit.

Remove product from areas of fire, or otherwise cool containers with water in order to avoid pressure being built up due to heat. Whenever possible, contain fire-fighting water by diking area with sand or earth. Do not allow run-off from fire fighting to enter drains or water courses.

**Hazchem Code** •3Z

### **SECTION 6. ACCIDENTAL RELEASE MEASURES**

### 6.1 Personal precautions, protective equipment and emergency procedures

**Precautions** Avoid contact with spilled product or contaminated surfaces. When

dealing with a spillage do not eat, drink or smoke. Use personal

protective equipment. Keep unauthorized people away.

# Movento® 240 SC Insecticide

Version 4 / AUS Revision Date: 22.01.2021 102000011328 Print Date: 22.01.2021

6.2 Environmental precautions

Contain contaminated water and fire fighting water. Do not allow to get into surface water, drains and ground water. If the product contaminates rivers and lakes or drains inform respective authorities.

#### 6.3 Methods and materials for containment and cleaning up

Methods for cleaning up Soak up with inert absorbent material (e.g. sand, silica gel, acid

binder, universal binder, sawdust). Clean contaminated floors and objects thoroughly, observing environmental regulations. Keep in

suitable, closed containers for disposal.

6.4 Reference to other

sections

Information regarding safe handling, see section 7.

Information regarding personal protective equipment, see section 8.

Information regarding waste disposal, see section 13.

### **SECTION 7. HANDLING AND STORAGE**

## 7.1 Precautions for safe handling

Advice on safe handling

Use only in area provided with appropriate exhaust ventilation.

Hygiene measures

Avoid contact with skin, eyes and clothing. Keep working clothes separately. Wash hands immediately after work, if necessary take a shower. Remove soiled clothing immediately and clean thoroughly before using again. Garments that cannot be cleaned must be

destroyed (burnt).

#### 7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers

Store in original container. Keep containers tightly closed in a dry, cool and well-ventilated place. Store in a place accessible by authorized persons only. Keep away from direct sunlight. Protect from frost.

Advice on common storage

Keep away from food, drink and animal feedingstuffs.

### SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

## 8.1 Control parameters

Components	CAS-No.	Control parameters	Update	Basis
Spirotetramat	203313-25-1	1.4 mg/m3 (SK-SEN)		OES BCS*
Glycerine	56-81-5	10 mg/m3 (TWA)	12 2011	AU NOEL
(Inhalable mist.)				

<sup>\*</sup>OES BCS: Internal Bayer AG, Crop Science Division "Occupational Exposure Standard"

#### 8.2 Exposure controls

Respiratory protection

If product is handled while not enclosed, and if contact may occur: Wear respirator with an organic vapours and gas filter mask (protection factor 10) conforming to EN140 type A or equivalent. Respiratory protection should only be used to control residual risk of short duration activities, when all reasonably practicable steps have been taken to reduce exposure at source e.g. containment and/or

# Movento® 240 SC Insecticide

Version 4 / AUS Revision Date: 22.01.2021 102000011328 Print Date: 22.01.2021

local extract ventilation. Always follow respirator manufacturer's

instructions regarding wearing and maintenance.

Hand protection Please observe the instructions regarding permeability and

breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the

contact time.

Wash gloves when contaminated. Dispose of when contaminated inside, when perforated or when contamination on the outside cannot

be removed. Wash hands frequently and always before eating,

drinking, smoking or using the toilet.

Material Nitrile rubber

Break through time > 480 min Glove thickness > 0.4 mm Protective index Class 6

Directive Protective gloves complying with EN

374.

**Eye protection** Wear goggles (conforming to EN166, Field of Use = 5 or equivalent).

**Skin and body protection** Wear standard coveralls and Category 3 Type 4 suit.

If there is a risk of significant exposure, consider a higher protective

type suit.

Wear two layers of clothing wherever possible. Polyester/cotton or cotton overalls should be worn under chemical protection suit and

should be professionally laundered frequently.

If chemical protection suit is splashed, sprayed or significantly contaminated, decontaminate as far as possible, then carefully

remove and dispose of as advised by manufacturer.

**General protective measures** In normal use and handling conditions please refer to the label

and/or leaflet. In all other cases the above mentioned

recommendations would apply.

**Engineering Controls** 

**Advice on safe handling** Use only in area provided with appropriate exhaust ventilation.

## SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

Form suspension

Colourwhite to light beigeOdourweak, characteristicOdour ThresholdNo data available

pH 4.0 - 5.0 (100 %) (23 °C)

Melting point/rangeNo data availableBoiling PointNo data available

Flash point > 100 °C

No flash point - Determination conducted up to the boiling point.

# Movento® 240 SC Insecticide

Version 4/AUS Revision Date: 22.01.2021 102000011328 Print Date: 22.01.2021

**Flammability** No data available

**Auto-ignition temperature** ca. 415 °C

Minimum ignition energy No data available Self-accelarating No data available

decomposition temperature

(SADT)

**Upper explosion limit** No data available Lower explosion limit No data available Vapour pressure No data available **Evaporation rate** No data available Relative vapour density No data available Relative density No data available

ca. 1.07 g/cm3 (20 °C) **Density** 

Water solubility miscible

Partition coefficient: n-

octanol/water

Spirotetramat: log Pow: 2.5(pH 7)

Particle size  $\leq 5 \mu m$ 

23 °C

laser diffraction

Viscosity, dynamic No data available Viscosity, kinematic No data available Surface tension 44 mN/m (25 °C)

Determined in the undiluted form.

**Oxidizing properties** No oxidizing properties

Not explosive **Explosivity** 

92/69/EEC, A.14 / OECD 113

9.2 Other information Further safety related physical-chemical data are not known.

### **SECTION 10. STABILITY AND REACTIVITY**

10.1 Reactivity

Thermal decomposition Stable under normal conditions.

10.2 Chemical stability Stable under recommended storage conditions.

10.3 Possibility of No hazardous reactions when stored and handled according to

hazardous reactions prescribed instructions.

# Movento® 240 SC Insecticide

 Version 4 / AUS
 Revision Date: 22.01.2021

 102000011328
 Print Date: 22.01.2021

**10.4 Conditions to avoid** Extremes of temperature and direct sunlight.

10.5 Incompatible materials Strong bases, Strong acids, Strong oxidizing agents

**10.6 Hazardous** Thermal decomposition can lead to release of:

decomposition products Hydrogen cyanide (hydrocyanic acid)

Carbon monoxide
Nitrogen oxides (NOx)

#### SECTION 11. TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects

Acute oral toxicity LD50 (Rat) > 2,000 mg/kg
Acute inhalation toxicity LC50 (Rat) > 3.013 mg/l

Exposure time: 4 h

Irritating to respiratory system.

Determined in the form of a respirable aerosol.

Highest attainable concentration.

Acute dermal toxicity LD50 (Rat) > 4,000 mg/kg
Skin corrosion/irritation No skin irritation (Rabbit)

Serious eye damage/eye

irritation

Slight irritant effect - does not require labelling. (Rabbit)

**Respiratory or skin** Skin: Sensitising (Guinea pig)

sensitisation OECD Test Guideline 406, Buehler test

#### Assessment mutagenicity

Spirotetramat was not mutagenic or genotoxic based on the overall weight of evidence in a battery of in vitro and in vivo tests.

#### Assessment carcinogenicity

Spirotetramat was not carcinogenic in lifetime feeding studies in rats and mice.

### Assessment toxicity to reproduction

Spirotetramat caused male reproductive toxicity in the presence of general toxicity in the rat at very high experimental dose levels. There were no effects on male fertility in mice and dogs. The reproductive toxicity seen with Spirotetramat is due to an overwhelmed elimination capacity at high doses. The high dose levels needed for this effect cannot be achieved even in a worst case exposure scenario.

## Assessment developmental toxicity

Spirotetramat caused developmental toxicity only at dose levels toxic to the dams. Spirotetramat caused a delayed foetal growth, an increased incidence of variations.

#### Assessment STOT Specific target organ toxicity - single exposure

Spirotetramat: May cause respiratory irritation.

#### Assessment STOT Specific target organ toxicity - repeated exposure

Spirotetramat did not cause specific target organ toxicity in experimental animal studies.

### **Aspiration hazard**

# Movento® 240 SC Insecticide

Version 4 / AUS Revision Date: 22.01.2021 102000011328 Print Date: 22.01.2021

Based on available data, the classification criteria are not met.

#### Information on likely routes of exposure

May cause respiratory tract irritation.

Harmful if absorbed through skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

May cause mild irritation to eyes.

Harmful if swallowed.

## Early onset symptoms related to exposure

Refer to Section 4

#### Delayed health effects from exposure

Refer to Section 11

# **Exposure levels and health effects**

Refer to Section 4

## Interactive effects

Not known

#### When specific chemical data is not available

Not applicable

#### Mixture of chemicals

Refer to Section 2.1

### **Further information**

No further toxicological information is available.

### SECTION 12. ECOLOGICAL INFORMATION

# 12.1 Toxicity

**Toxicity to fish** LC50 (Oncorhynchus mykiss (rainbow trout)) 7.75 mg/l

Exposure time: 96 h

LC50 (Lepomis macrochirus (Bluegill sunfish)) 2.2 mg/l

Exposure time: 96 h

The value mentioned relates to the active ingredient spirotetramat.

Toxicity to aquatic invertebrates

EC50 (Daphnia magna (Water flea)) >= 42.7 mg/l

Exposure time: 48 h

The value mentioned relates to the active ingredient spirotetramat.

EC50 (Chironomus riparius (non-biting midge)) 0.46 mg/l

Exposure time: 28 d

The value mentioned relates to the active ingredient. NOEC (Chironomus riparius (non-biting midge)) 0.1 mg/l

Exposure time: 28 d

The value mentioned relates to the active ingredient.

Toxicity to aquatic plants IC50 (Raphidocelis subcapitata (freshwater green alga)) 13.4 mg/l

Growth rate; Exposure time: 72 h

# Movento® 240 SC Insecticide

Version 4 / AUS Revision Date: 22.01.2021 102000011328 Print Date: 22.01.2021

IC50 (Raphidocelis subcapitata (freshwater green alga)) 8.15 mg/l

Exposure time: 72 h

The value mentioned relates to the active ingredient spirotetramat.

Toxicity to other organisms LD50 (Colinus virginianus (Bobwhite quail)) > 2,000 mg/kg

The value mentioned relates to the active ingredient spirotetramat.

12.2 Persistence and degradability

**Biodegradability** Spirotetramat:

Not rapidly biodegradable

**Koc** Spirotetramat: Koc: 289

12.3 Bioaccumulative potential

**Bioaccumulation** Spirotetramat:

Does not bioaccumulate.

12.4 Mobility in soil

Mobility in soil Spirotetramat: Moderately mobile in soils

12.5 Other adverse effects

Additional ecological

information

No other effects to be mentioned.

## **SECTION 13. DISPOSAL CONSIDERATIONS**

Triple-rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. Do not burn empty containers or product.

Do not reuse container for any other purpose.

### **SECTION 14. TRANSPORT INFORMATION**

This SDS summarises our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace including in conjunction with other products.

If clarification or further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company.

Our responsibility for products sold is subject to our standard terms and conditions, a copy of which is sent to our customers and is also available on request.

Reason for Revision: The following sections have been revised: Section 3: Composition /

Information on Ingredients.

Changes since the last version are highlighted in the margin. This version replaces all previous versions.
